7301 Briley Dr.	I live at 7211 Briley Drive. ##I was visiting with neighbor 2 doors down (towards the 7300 block) I believe the family name is Richards.... anyway, he reports that the bathroom / kitchen remodel that were started some 2 years ago by a then boyfriend of his sister have yet to be completed. ##There are holes in the ceilings allowing a baby racoon to fall through and holes in the walls allowing rats and other vermin to get into their house. ##He adds that his back yard floods with the heavy rains and this is worsening over time. ## She is unable to pay for contracted help and her son does not have the skills to complete / resolve these issues. ##She is around 85 years old and has some problems with dementia. ##Her son lives with her and takes care of her	06/21/2019	19-02959		4

	(the best that he can) ##There are 2 daughters who are trying to help clean the home and throw away junk that is saved but ##Richard (the son) states that his mother is a hoarder. ##The daughters are Jackie and ??Cathy?? I am concerned for the health of our neighborhood in general if they have this type of "vermin" and I know that the rats have been bothering another neighbor who has never had this type of problem. ## I don't want to cause problems, but there is a problem. ##If possible I would greatly appreciate remaining anonymous as the family is somewhat leary of "outsiders". ## Is there a volunteer group of contractors that can come in and make her home safe again? ##
